Cuero Regional Hospital: ICU relocated to Day Surgery due to renovations

Cuero, Texas: Cuero Regional Hospital's ICU is getting a facelift. Thanks to the generous support of the Dewitt Medical Foundation, the ICU will have new floors, new nursing station, as well as new paint to complete the look. During the renovation process, ICU will temporarily be located in the Day Surgery area.

"Our ICU already features skilled, caring physicians and staff; with these renovations, our ICU will be a much more pleasing space for patient care and visitors. We are eager to open the doors to serve the public in the renovated space soon," said Lynn Falcone, Cuero Health CEO.

"Our ICU is staffed by a highly trained and caring patient care team," said Jennifer Janssen, Director of the ICU at Cuero Regional Hospital. "We will continue to provide the same level of high tech, high touch care in the temporary space and are eager to move back to our permanent ICU once the renovations are complete."

Cuero Regional Hospital is located at 2550 N. Esplanade in Cuero, Texas and offers an ED-Level IV Trauma Center, on-staff General Surgeon, and a TeleStroke program. For more information, please visit www.cuerohospital.org or call (361) 275-6191.
